## **2J. Board Education**

The Board recognizes that continual updating of skills and awareness are vital to a member's contribution to the Board. The Board recognizes the value of Board development through continuing education and shall develop a coordinated plan of events.

The Board shall:

1. Under the leadership of the Planning Committee, develop an annual educational calendar of events based on common interests and needs.
2. Use the annual Board self evaluation as one source to determine educational requirements of individuals.
3. Use internal and external resources to provide education.
4. Provide new members with an orientation as outlined in the Board governance manual.
